Registrant’s telephone number, including area code: 330-841-0123

Item 5. Other Events

On January 24, 2002, the Company issued the following press release:

SECOND BANCORP REPORTS
SOLID FOURTH QUARTER, RECORD EARNINGS FOR 2001

Warren, Ohio, January 24, 2002—SECOND BANCORP INCORPORATED (Nasdaq “SECD”, “SECDP”) reported solid financial performance for the recently completed fourth quarter and record annual earnings for 2001. Net income for the quarter was \$4,334,000 or \$.43 per diluted share compared to \$4,030,000 or \$.40 per share for the same period last year. Excluding transaction costs associated with the Company’s October acquisition of Commerce Exchange Corporation, quarterly earnings would have been \$4,532,000 (\$.45 per diluted share), an increase of 12.5% over a year ago. For the full year, net income was a record \$17,080,000 or \$1.69 per diluted share compared to \$6,134,000 or \$.60 per share in 2000. Earnings for 2000 were adversely effected by a \$9.02 million (after tax) restructuring charge taken in the third quarter of that year.

Key performance measures for the quarter and the year were generally improved over year-ago levels. Returns on average assets (ROA) for the quarter and the year were 1.03% and 1.08% respectively (compared to 1.05% and .39% a year ago) and returns on average equity (ROE) were 13.21% for the quarter and 13.77% for the full year (compared to 14.28% and 5.35% respectively

in 2000). Excluding acquisition costs, ROA for the quarter and the full year would have been 1.08% and 1.09% respectively and ROE for the same periods would have been 13.81% and 13.93%. Net interest margin results were mixed finishing the quarter and year at 3.57% and 3.49% respectively compared to 3.65% and 3.46% for the same periods in 2000. The Company's fourth quarter efficiency ratio improved minimally to 60.27% from 60.77% a year ago and was 58.78% for the full year, dramatically stronger than the 70.67% reported for 2000. The Company's net overhead ratio was similarly improved to 1.49% for the quarter (from 1.81% last year) and 1.51% for the year (from 2.23% in 2000).

Second Bancorp Treasurer David L. Kellerman indicated "A couple of the Company's key performance measures were adversely effected by market conditions during the year. Specifically, ROE for the quarter and the year was restrained by increases in balance sheet equity resulting from significant growth in unrecognized gains in the Company's investment portfolio. Sluggishness in the Company's net interest margin reflected, in part, the impact of the Federal Reserve's successive interest rate reductions during 2001. Anticipated stabilization of rates in 2002 will stimulate margin growth this year."

Excluding securities gains and trading results for each period, non-interest income for the quarter and for the year was \$5.8 million and \$18.9 million respectively, dramatic 55% and 71% improvements over year-ago results. The strength in non-interest income was primarily the result of robust secondary market and loan servicing activity in our core mortgage lending business and significant growth in deposit account service charges. Non-interest expenses, while climbing to \$12 million for the fourth quarter, finished 2001 at \$41.9 million, 5.1% lower than a year ago. The increase in fourth quarter expenses was lead by growth in salary and benefit costs. In large part, the higher costs were the result of (i) increased staffing in support of our mortgage loan business to keep pace with accelerating loan and loan servicing activity, (ii) payment of employee incentives tied to improved profitability and loan and fee business generation, and (iii) an unusually large volume of medical and hospital claims under the Company's previously self-funded benefit plan.

Credit quality continues to be a focal point for the Company as recessionary pressures persist. The level of non-performing loans and net charge-offs trended upward during 2001 and were .94% of year-end loans and .47% of average loans for the year respectively. Second Bancorp's loan loss reserve continues to provide adequate coverage for non-performing assets at 1.49% of total year-end loans, seven basis points higher than the reserve a year ago.

Second Bancorp President and Chief Executive Officer R. L. (Rick) Blossom stated "Second Bancorp and subsidiary Second National Bank have had a solid year marked by controlled costs, by growth in key businesses lines, especially those generating all-important fee income, and by consistently improving bottom-line earnings. Noteworthy among many positive developments during the year were the acquisition and successful integration of Commerce Exchange Corporation giving us greater access to the attractive suburban Cleveland market. Equally important were the performances of our mortgage loan and deposit generating lines of business. Flexibility and rapid response to changing market conditions allowed the Company's mortgage loan department to recognize and seize opportunities presented by the falling interest rate environment that characterized 2001. Our line-of-business focus on deposits also helped to stabilize the Company's net interest margin during the year and position it for future growth by simplifying product lines and shifting deposit generating initiatives to core deposit growth. These and other efforts have been recognized and rewarded by the securities market pushing the value of our common stock to \$21.61 at year end, up nearly 50% over the course of the year."

The Company also reported that its Board of Directors declared a seventeen cent (\$.17) per share common dividend payable January 31, 2002 to shareholders of record on January 15. That dividend is unchanged from last quarter and is 6.25% higher than the dividend paid for the fourth quarter of 2000.

This announcement contains forward-looking statements that involve risk and uncertainties, including changes in general economic and financial market conditions and the Company’s ability to execute its business plans. Although management believes the expectations reflected in such forward-looking statements are reasonable, actual results may differ materially.

Second Bancorp is a \$1.7 billion financial holding company providing a full range of commercial and consumer banking, trust, insurance and investment products and services to communities in a nine county area of Northeastern and East-Central Ohio through subsidiary Second National Bank’s network of 37 retail banking centers.

Additional information about Second Bancorp and information about products and services offered by Second National Bank can be found on the Web at www.secondnationalbank.com.
